D-Line is a UK company with a global reputation for innovative cable management products, that satisfy popular demands wherever ***time, safety*** and ***appearance*** matter.

Time...

Use D-Line trunkings to contain cables when channelling surfaces or lifting floors is impractical. The patented hinged & click-lock lids combine to make D-Line trunkings quick and easy to install.

Safety...

In event of fire, Safe-D® Clips hold cables secure for at least 2 hours at 930°C - to prevent cables dropping and so eliminating the danger of entanglement on escape routes.

D-Line Floor Cable Covers protect cables and minimise risks of trips and falls; our Cable Tidy range addresses other hazards of trailing wires.

Appearance...

The shapes and style of D-Line products subtly blend with decor, or can create a striking feature!

Since pioneering iconic D-shaped trunkings we've developed a broad range of cable management solutions, designed to save time and cost, reduce safety concerns, while looking great in-situ. All are fully safety tested and certified to highest quality standards.

D-Line Decorative Trunking

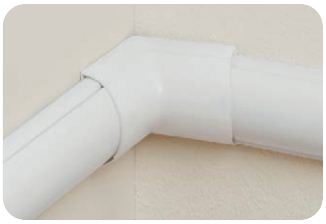
"D-Line helps us win jobs, saving time and the hassle of recessing cables, providing a quality finish not possible with alternative trunkings"

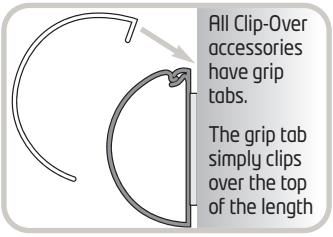
	Feature	Benefit
	Designer shapes	• Making surface installations a preferred option • Saves channelling walls & lifting floors • Tapered designs give subtle appearance
	 ½ round profiles	• Shape blends above skirting... or neatly hides cable drops • Alternative sizes satisfy popular demands Available as (width x height) 16x8mm, 30x15mm, 40x20mm, 50x25mm & 60x30mm • Gentle on impact and easier to clean
	 ¼ round profiles	• Available in (w x h) 22x22mm & 30x30mm • 22x22mm makes the ultimate floor trim (see p11) • Can also be used as cornice or coving
	PVC	• Self extinguishing • UV stabilised • Lightweight & easy to cut • Stable between -30°C to +60°C • Satisfies BS EN 50085-1:2005
	**Patented hinge & click-lock lid**	• Single-piece design... for quick & easy handling • Lids will never peel or detach - maintenance friendly • Tensioned hinge provides a cable retainer to keep cables in position during installation • Easy to later add or remove cables • User friendly in tight spaces (machines, furniture etc) • Hinge acts as a shock absorber on impact
	Film covered lengths	• Keeps lengths pristine before installation • Environmentally friendly packaging
	All lengths have self-adhesive foam backing	• Simply peel & stick - Quick & easy to install • Can be drilled also

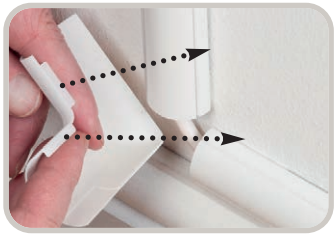
Feature	Benefit
Paintable	• Can blend with any decor
Clip-Over & Smooth Fit accessories	• No need to mitre cut corners • Provide perfect finish • Clip-Over available for 30x15mm & 22x22mm profiles

Clip-Over Accessories (for 30x15mm & 22x22mm profiles)

Design forgives rough cuts and imprecise measuring





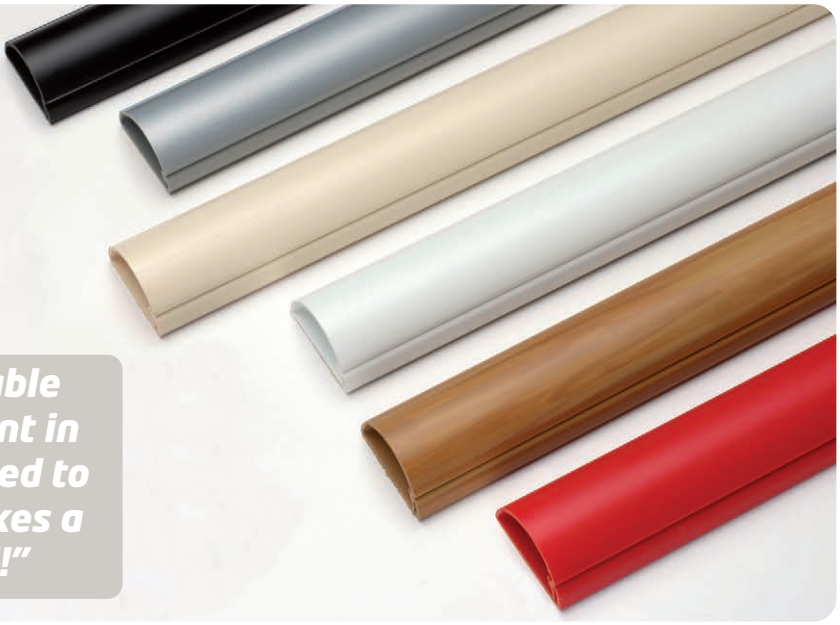


Smooth Fit Accessories (all sizes)

Internal shoulders fit securely under lengths

D-Line Decorative Trunking is available in a range of colours

see pages 12-15 for more details



"The most innovative cable management development in decades... without the need to spoil surfaces, D-Line makes a better choice all round!"

½ Round Decorative Trunking

Mini Trunking (30x15mm)

Use D-Line 30x15mm (width x height) Mini Trunking to contain cables for new sockets (eg 2x 2.5mm Twin & Earth); lighting installations (eg 2x 1.5mm T&E); drops to switches (2x 1.5mm T&E) Fire Performance cables (eg 2x 1.5mm 2c FP); also Cat 5 cables (up to 4); Co-Axial and Broadband cables etc.

Use accessories to connect neatly with popular fittings

Ideal for audio visual, telecoms & network installations

Case Study

When 20,000 hotel rooms needed to hide cables for new heating controllers, D-Line Mini Trunking proved the perfect choice...

Using D-Line saved a small fortune compared to the cost of channelling the walls then re-plastering and re-decorating.

Aside the noise and disruption, trying to recess the cabling would have put rooms out-of-service. However traditional trunking did not look suitable for a hotel chain with a reputation for comfort and style.

Cables fed from wall mounted heaters to wall mounted controllers were concealed in D-Line Mini Trunking which blended with the skirting and, when necessary, up-and-around bedheads.

A cut-length rose up to the heater via a clip-over Equal Tee, while clip-over Internal Bends made internal corner connections quick and easy. The Flat Bend required was the smooth-fit version, as the secure internal tabs were favoured to eliminate future maintenance concerns, given that this part was most likely to be bumped by guests' baggage.

The ½ round shape of the length rising up to the wall-mounted controller was preferred also for its impact resistance, the lack of sharp edge a distinct benefit (compared to traditional sharp edge trunking) .

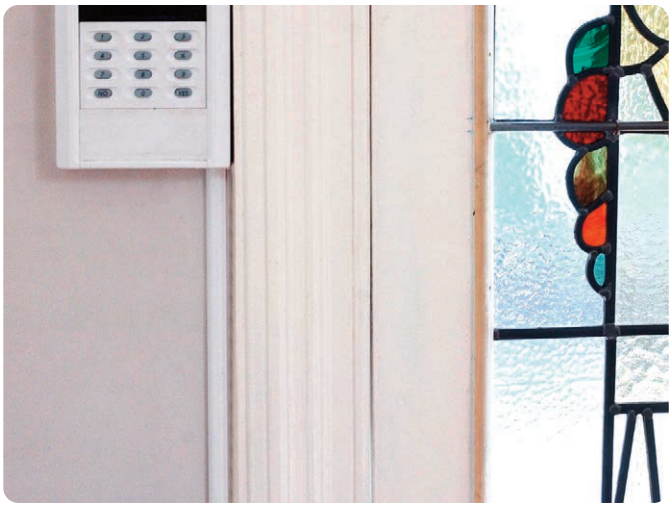
The D-Line Cutting Tool was used throughout, saving time and leaving no dust.

The self-adhesive tape was used to attach the lengths to the walls, with a screw-fixing and plug then inserted 750mm from each end.

The result was 20,000 installations using 200km - all easy to fit, quick to install and blending with decor. Further details on request.

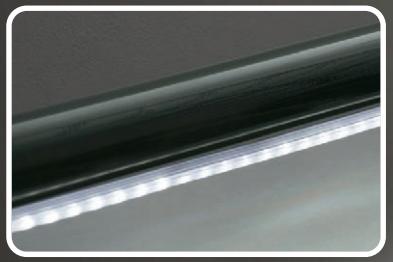
Micro Trunking (16x8mm)

D-Line Micro Trunking is ideal for hiding speaker, telephone and alarm cables. The ½ round low-profile and tapered design can disappear with subtle aesthetics whatever the surface.



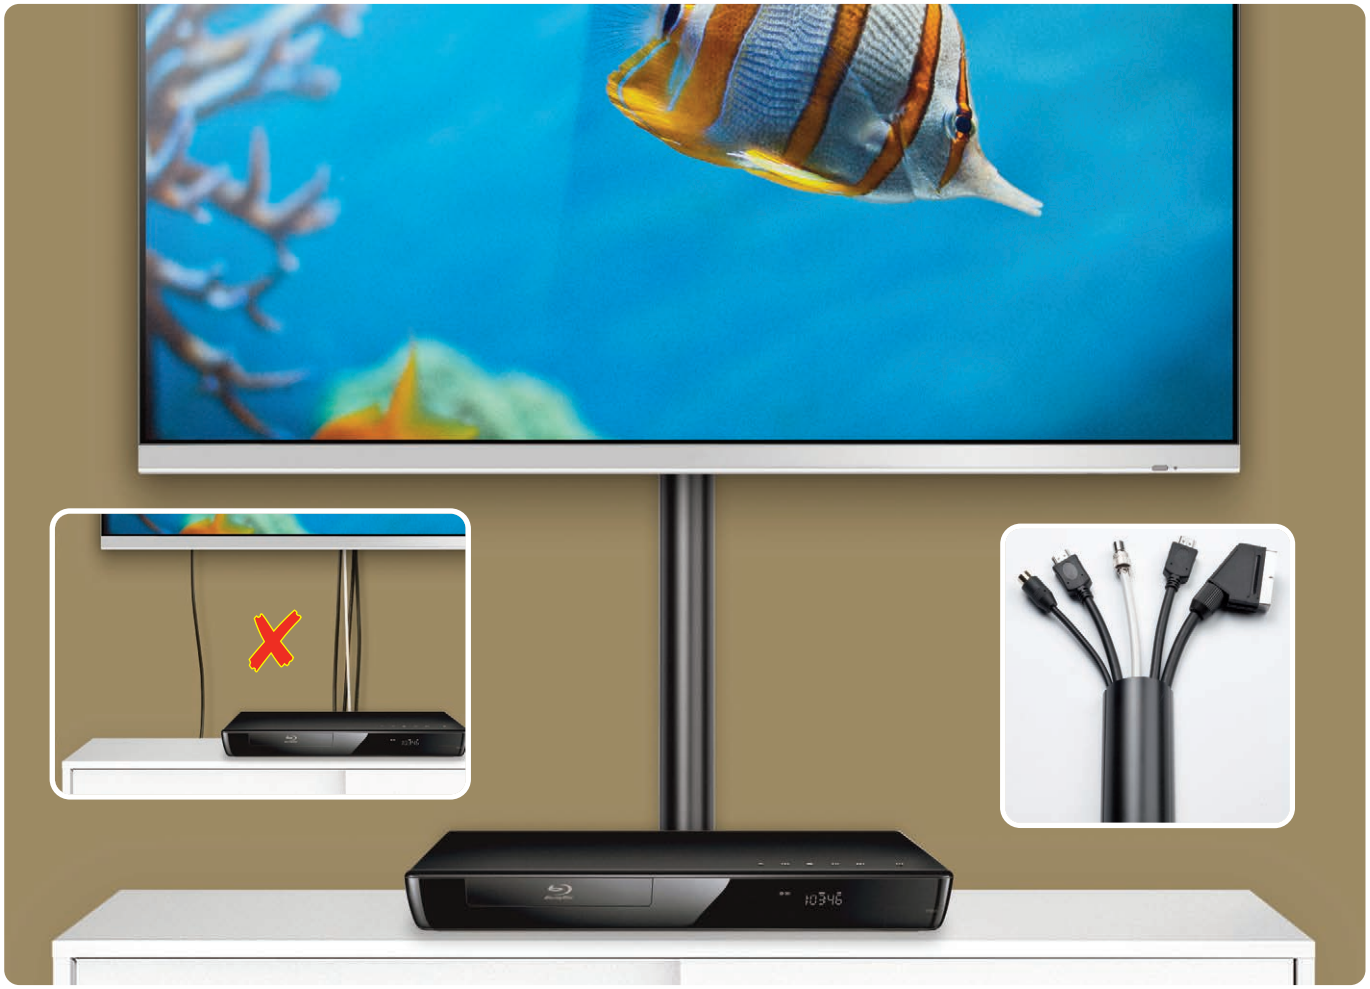
Frosted profiles available for special order - ideal to contain & protect LED lighting strips while providing glare control & a means to drill & fix to surfaces

For display, safety, guidance and ambient lighting



50x25mm Trunking

D-Line 50x25mm Trunking contains cables in a stylish ½ round design that saves the time and trouble of channelling, then having to repair walls. Plus there's the on-going benefit of the hinged and click-lock lid, making it easy to add or remove cables later. Available in a choice of colours (see p12-15) or can be painted...



- No sharp edges & shock absorbing design
- Versatile, easy to add or remove cables
- Easy to cut & self adhesive
- Hinge & click-lock for speedy fix

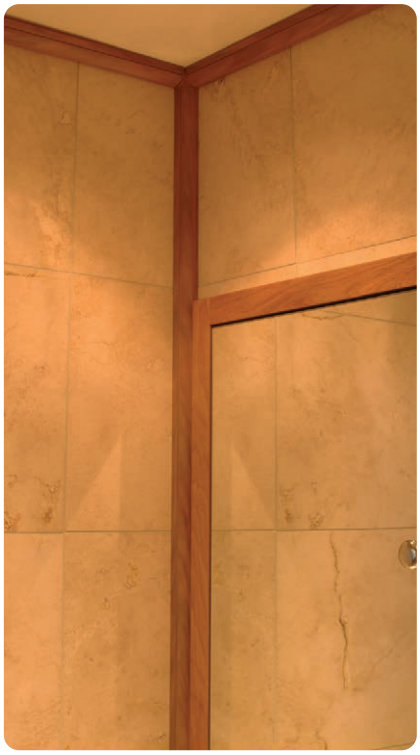
¼ Round Trunking

D-Line ¼ round Trunking makes a neat choice to hide cables between two 90° surfaces. These ¼ Round profiles are popular around floors, worktops, covings & cornices.

22x22mm Trunking

30x30mm Trunking

pic D-Line 30x30mm ¼ Round Trunking as coving/cornice. Reducing Tee connects to 30x15mm Mini Trunking for lighting & smoke alarm cables. Ref Social Housing rewires



By eliminating the need for skirting 30x30mm Trunking can provide an edging and a cable path

Floor Trim

D-Line Floor Trim provides the ultimate floor edging system... clip-over accessories eliminate the need for precise end-to-end measuring and mitre-cuts, making D-Line ¼ Round up to 50% quicker to install than traditional scotias - while providing a cable path! A choice of finishes are available.

patented click-lock lid
easy to add or remove cables

self-adhesive
no need for glue or nails

clip-over bends
- eliminate need for precise measuring
- no need to mitre cut 90° corners

Stainable Version

accepts woodstains to match darker floors

Light Oak Wood-Grain Effect also available

Matching clip-over corner accessories (with congruent wood-grain effects) achieved by patented process technologies

"D-Line have considered every step to make floor trim easier to fit. No longer a time consuming job, we now use it as standard"

Clip-Over Accessories

Smooth Fit Accessories

½ Round Clip-Over Accessories *(30x15mm only)*

Internal Bend
Join lengths around 90 degree inside corners

External Bend
Join lengths around 90 degree outside corners

Flat Bend
Change direction by 90 degrees on flat surfaces

Equal Tee
Use to clip-over 3 lengths of same profile

Door Top Bend
Change direction by 90 degrees around frame tops

¼ Round Clip-Over Accessories *(22x22mm only)*

Internal Bend
Join lengths around 90 degree inside corners

External Bend
Join lengths around 90 degree outside corners

Cable Inlet/Outlet
Use to provide cable entry/exit point between 2 lengths

Use with smooth-fit Couplers & End Caps

½ Round Smooth Fit Accessories

Internal Bend
Join lengths around 90 degree inside corners

External Bend
Join lengths around 90 degree outside corners

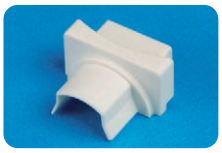
Flat Bend
Change direction by 90 degrees on flat surfaces

Equal Tee
Use to join 3 lengths of same profile

Coupler
Join 2 lengths of same profile on flat surface

End Cap
Neatly finish open ends

Circular Adaptor
Connect 30x15mm Mini Trunking to flat edge surfaces with 20mm Ø knock-outs

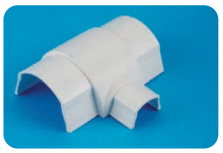


Pattress Adaptor
Connect 30x15mm Mini Trunking to round surface pattresses

Cable Inlet/Outlet
Takes cables in or out of a 30x15mm Mini Trunking installation. Use between lengths on straight runs

Box Adaptor
For use with D-Line surface Socket Boxes

Box Adaptor Tee
For use with D-Line surface Socket Boxes



Reducing Tee
Connect to 30x15mm Mini Trunking

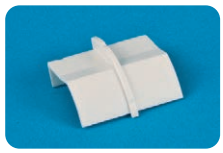
¼ Round Smooth Fit Accessories

Internal Bend
Join lengths around 90 degree inside corners

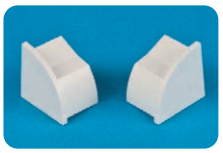
External Bend
Join lengths around 90 degree outside corners

Cable Inlet
Use to provide cable entry point between 2 lengths

Cable Outlet
Use to provide cable exit point between 2 lengths



Coupler
Joins 2 lengths on flat surfaces



End Cap
Neatly finish open ends (left & right versions apply)

Other Accessories

Single Surface Socket Box
For use with 30x15mm D-Line Mini Trunking...
Available in 28mm & 35mm depth

Twin Surface Socket Box
For use with 30x15mm D-Line Mini Trunking...
Available in 28mm & 35mm depth

SAFE-D30 Clip
Fire rated cable clip for use with 30x15mm D-Line & 25mm+ wide traditional trunkings

SAFE-D40 Clip
Fire rated cable clip for use with 40x20mm D-Line & 40mm+ wide traditional trunkings

SAFE-D50 Clip
Fire rated cable clip for use with 60x30mm D-Line & 50mm+ wide traditional trunkings

Ratchet Cutting Tool
Use to cut up to 40mm wide D-Line Trunking

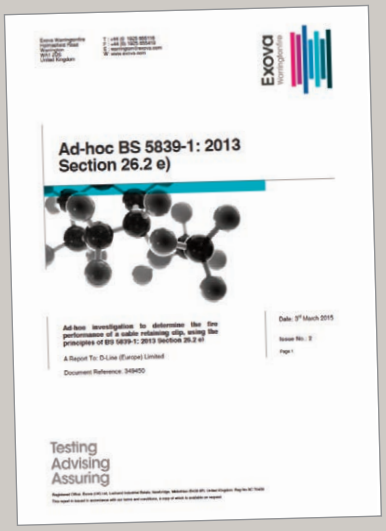
Safe-D® Fire Rated Clips

Safe-D® Clips are fully certified to satisfy legislative requirements to secure all surface cables in escape routes. When used with appropriate fixings they can securely hold bundles of cables on a surface at 930°C for at least 2 hours.

The publication of Amendment 3 to the 17th Edition (BS7671:2015) Wiring Regulations states (in Chapter 52 - Selection and Erection of Wiring Systems) under section 521.11 that after 1st July 2015 "Wiring systems in escape routes shall be supported in such a way that they will not be liable to premature collapse in the event of fire."

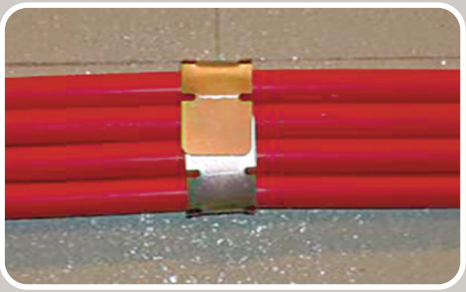
In Note 1, there is particular reference to failure of non-metallic trunking leading to cables hanging across access/egress routes & hindering evacuation/fire-fighting activities.

In Note 2, it specifically prohibits the use of non-metallic clips, cable ties or plastic trunking as the sole means of support. Where a non-metallic cable trunking is used, a suitable fire-resistant means of support must be provided to prevent cables falling into escape routes and causing potentially fatal entanglements.



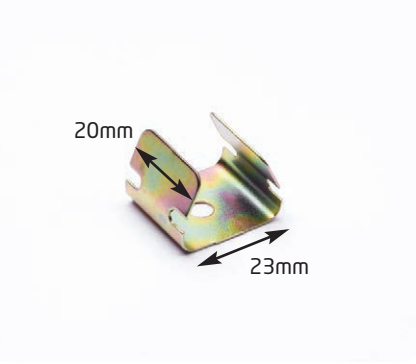
Safe-D Clips Test & Certification - Conclusion (extract)...

"The test results demonstrate that the cable retaining clips do not reduce the circuit integrity below that afforded by the standard fire resisting cable used, and that they withstand a similar temperature and duration to that of a standard fire resisting cable, while maintaining adequate support. Consequently, the test results demonstrate that the clips meet the requirements of section 26.2 e) of BS 5839-1."



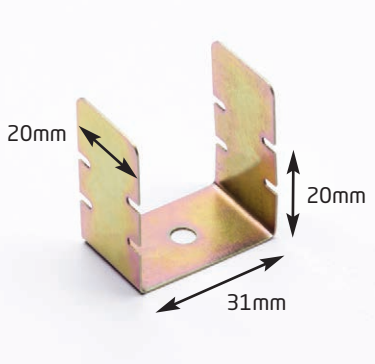
- ***High-temperature rated Safe-D Clips can hold cables for 2 hours at 930°C (+40° -0°)***
- ***All Safe-D Clips are fully tested as BS5839 part 1 compliant; by Exova Warrington Fire...***
  copy certification on request
- ***20mm wide side-tabs & pliable gauge combine for quickest and easiest folding***
- ***Smooth & rounded edges, as required by design code BS7671 s522.8.11, to protect soft-skin cables etc (and user friendly!)***
- ***Passivated non-corrosive coating on all faces & edges***
- ***5mm diameter hole accepts all popular non-combustible fixings***
- ***Ideal for ceiling voids, or popular PVC trunkings 25mm - 50mm widths***
- ***Patent pending***

SAFE-D30



23mm base for popular 2 cable combinations. (2x 2.5mm T&E; 2x 1.5mm FP Cables; up to 4 Cat5)

SAFE-D40



Can fit 32-40mm trunking bases
folds to max 20mm height

SAFE-D50

Can fit up to 50mm trunking bases
Folds to max 30mm height, so ensuring space for air circulation within 50x50mm trunking

All Safe-D Clips are suitable for direct to surface fitting

SAFE-D40 in Dado-Trunking

Safe-D Clips can fit traditional PVC Trunkings (from 25x16mm up to 50x50mm profiles)

	SAFE-D30 Base Measurement = 23mm	SAFE-D40 Base Measurement = 31mm	SAFE-D50 Base Measurement = 46mm
Suitable for use with these trunkings	**D-Line 30x15mm**	**Size 3** 40mm x 16mm (w x h)	**Size 6** 50mm x 25mm (w x h)
		Size 4 40mm x 25mm (w x h)	**Size 7** 50mm x 32mm (w x h)
	Size 2 25mm x 16mm (w x h)	**Size 5** 40mm x 40mm (w x h)	**Size 8** 50mm x 50mm (w x h)

Pic shows SAFE-D30 in D-Line Mini Trunking 30x15mm

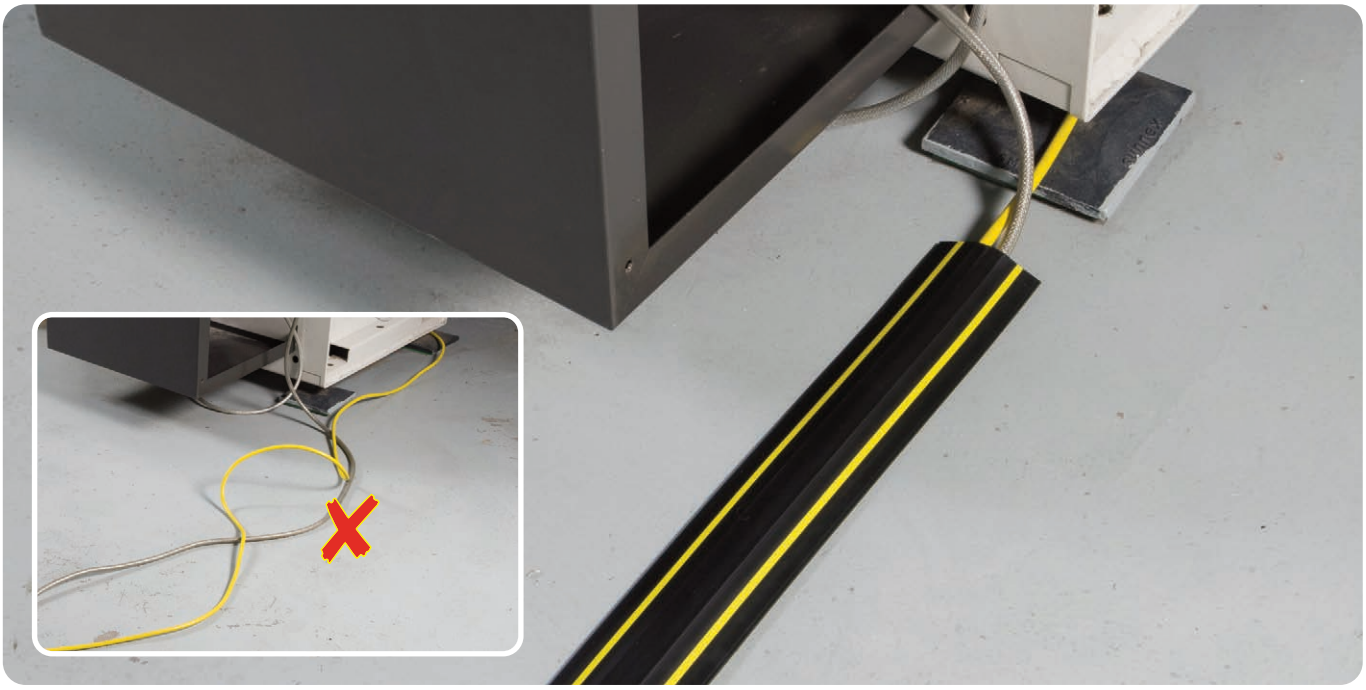
To specify Safe-D Clips: High-temperature pliable-steel fire-rated clips with passivated non-corrosive finish, 20mm wide smooth-rounded-tabs to satisfy design requirement BS7671 s522.8.11, and capable of holding cables securely in compliance with performance requirement BS5839-1. Use with non-combustible fixings suitable for relevant surface.

To fit at 300mm horizontal & 400mm vertical spacings.

To specify D-Line Mini Trunking: (eg For 2x 2c 1.5mm FP Cables) ½-Round Mini Trunking, produced using self-extinguishing PVC with non-detachable hinged & click-lock lid in a single piece design, as compliant with BS EN 50085 - 1:2005 Part 1. Use with proprietary accessories.

Medium Duty Linkable Floor Cover

To protect cables and minimise the risk of trips and falls, these profiles are ideal in areas with regular foot traffic. Being linkable makes D-Line Medium Duty Floor Covers most versatile.

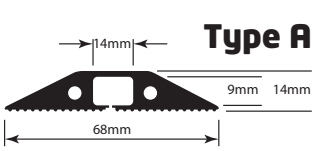


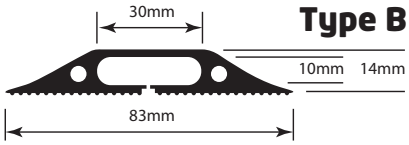
Each length is supplied with 2 connector pins.

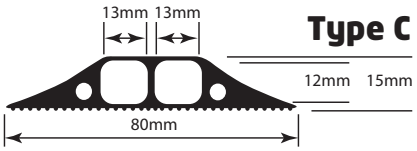
Simply push these connector pins into pin holes to join 2 or more lengths, to make the run as long as required! Pull apart to release if necessary.

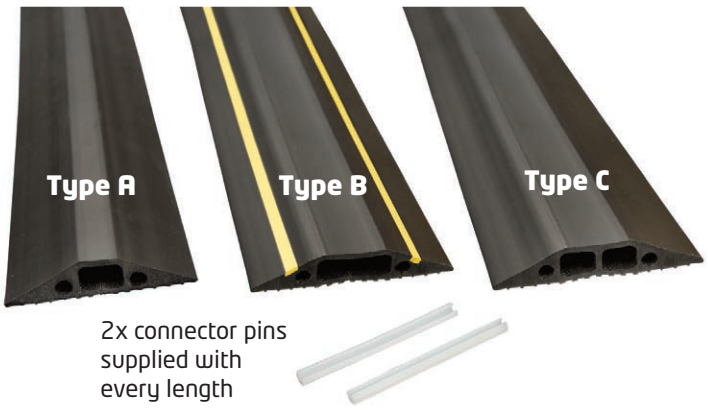
The ribbed back makes the lengths non-slip, so saving the need for adhesive tape. Single compartment versions (Types A & B) are pre-split to contain cables in the cavity.

Products are certified to BS EN 60670-1:2005.

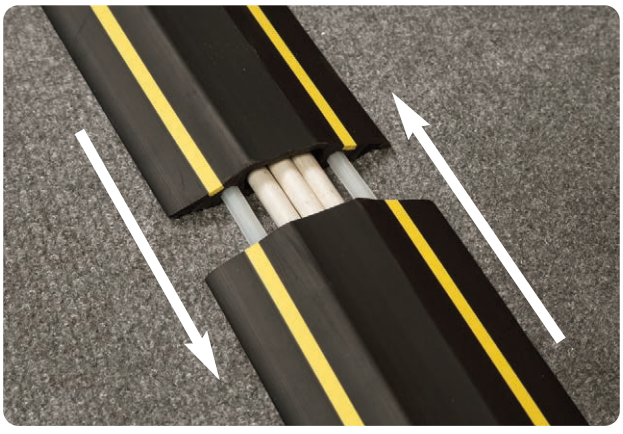








2x connector pins supplied with every length



Supplied coiled in box; simply unroll to lay flat

Description	Colour	1.8m Part No.	9m Part No.
68mm wide with 14 x 9mm cable cavity	Black	FC68B	FC68B/9M
83mm wide with 30 x 10mm cable cavity	Black	FC83B	FC83B/9M
83mm wide with 30 x 10mm cable cavity	Black/Yellow	FC83H	FC83H/9M
83mm wide with 2 x 13 x 12mm cable cavities	Black	FC83B/2C	FC83B/2C/9M

Light Duty Floor Cover

The perfect choice to cover cables trailing across open floors with light foot traffic.

The cavity can accommodate 2 x 8mm popular flex type cables. The 1.8m and 9m lengths can be cut if required.

The profile is made of flexible grade PVC so effectively uncoils to lay flat. A ribbed back makes the length non-slip so eliminates the need for adhesive tapes. The pre-split rear cavity makes it easy to insert cables.

A tapered design and narrow width gives a discreet low-profile appearance to blend in any area.

Products are certified to BS EN 60670-1:2005.

Supplied coiled in box; simply unroll to lay flat

Description	Colour	1.8m Part No.	9m Part No.
Light Duty 60mm wide with 17 x 9mm cable cavity	Black	CC-1	CC-1/9M

Cable Tidy Pre-Split Tube

To protect & tidy cables, pre-split Cable Tidy Tube is quick and easy to use and can fit around cables in-situ.

This pre-split conduit tubing is designed to provide a high degree of flexibility. Lengths are produced from material that is comfortable to use manually - so eliminating any need for application tools and making it easy to add or remove cables.

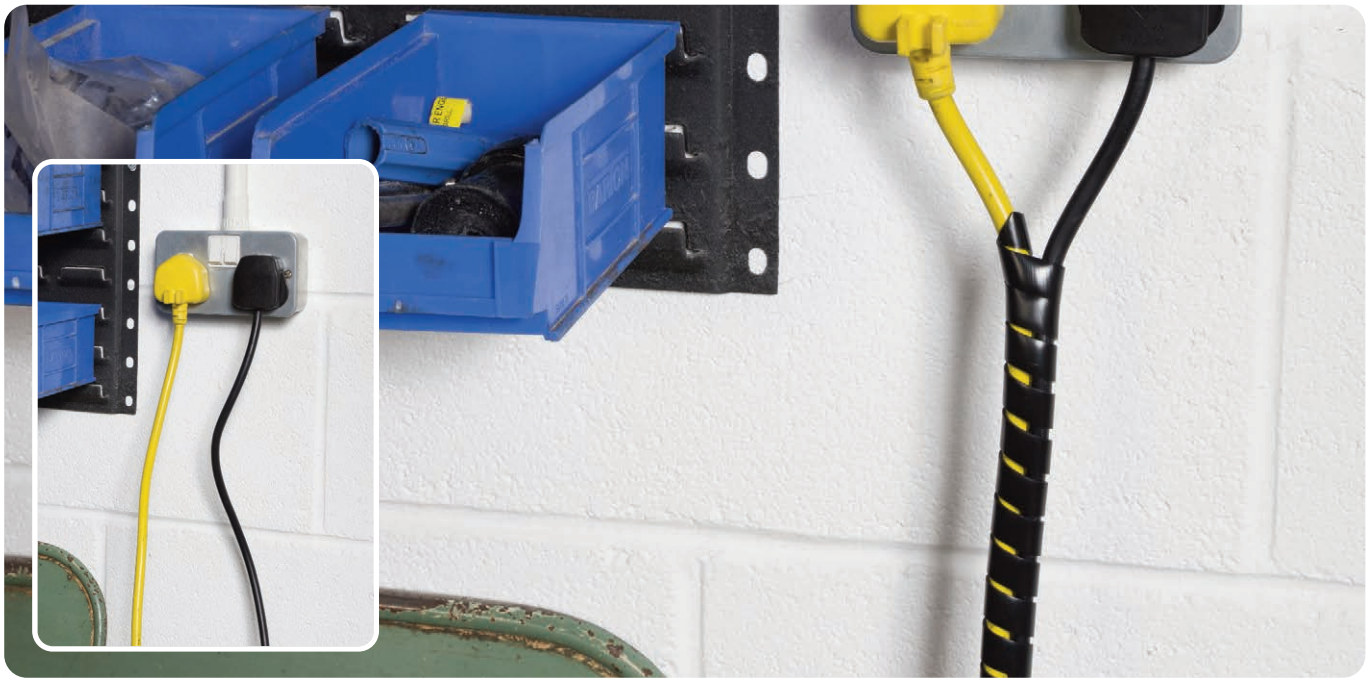
Cable Tidy Pre-Split Tube is UV stabilised, and halogen free. Products are certified to BS EN 60695-2-10:2001.

The 1.1m length makes a popular choice behind TVs and desks.

Description	Colour	Part No
32mm outer dia (26.2mm internal dia) 1.1m length	Black	CTT1.1B
32mm outer dia (26.2mm internal dia) 1.1m length	White	CTT1.1W
25mm outer dia (19.5mm internal dia) 1.1m length	Black	CTT1.1/25B

Cable Tidy Spiral Wrap

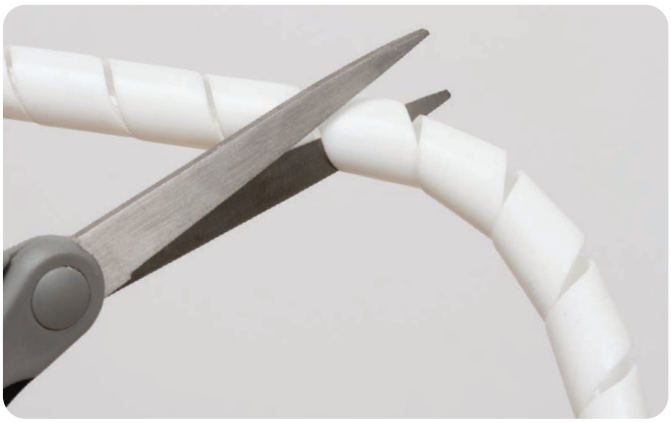
Cable Tidy Spiral Wrap provides a universally popular and versatile option for organising and protecting bundles of cables.



D-Line spiral wrap solution is versatile by the users ability to simply wrap by hand around the cables according to the diameter of the bundle (up to 40mm). Also cables can branch out along the length at any point and in any direction.

For use to securely wrap cables together in offices, homes and factories - the lengths can be simply cut by scissors.

Halogen free, UV stabilised, this spiral wrap offers good resistance to oils and lubricants, acids, alkalis and fuels.



Description	Colour	Part No
2.5m Spiral Wrap suitable for 10-40mm	Black	CTW2.5B
2.5m Spiral Wrap suitable for 10-40mm	White	CTW2.5W
3.0m Spiral Wrap suitable for 6-20mm	Black	CTW3B

Cable Tidy Units

Cable Tidy Units provide a smart and practical solution to safely and easily contain cable clutter.

Cable Tidy Units are available in two sizes to contain most 6 way or 4 way extension blocks, transformer plugs and associated cable spaghetti. With all cabling contained inside the Unit, wasted space is returned and surfaces become easier to clean. A safety trip and spill hazard is also eliminated.

The Units have 3 cable exits / entry slots in the rear so a neat front is always maintained. If a Unit is next to a wall, use D-Line Trunking lengths to hide entry and exit cables; alternatively consider D-Line Split Tube and Spiral Wrap.

Cable Tidy Units have been tested and certified to exacting safety standards (BS EN 60670-22:2006).

Case Study

As used at Wembley Stadium to contain 800+ extension blocks & cable clutter on solid floors below till points

Description	Black Part No	White Part No
Small Cable Tidy Unit (325mm W x 125mm D x 115mm H)	CTUSMLB	CTUSMLW
Large Cable Tidy Unit (415mm W x 165mm D x 135mm H)	CTULGEB	CTULGEW

Also Available...

Cable Tidy Bases

Save time retrieving fallen cables - Keep cables where needed

Description	Part No
Cable Tidy Base Black (bag of 100)	CTBASEBLK
Cable Tidy Base White (bag of 100)	CTBASEWHT
Cable Tidy Base Grey (bag of 100)	CTBASEGRY
Cable Tidy Base Pink (bag of 100)	CTBASEPNK
Cable Tidy Base Yellow (bag of 100)	CTBASEYLW
Cable Tidy Base Green (bag of 100)	CTBASEGRN

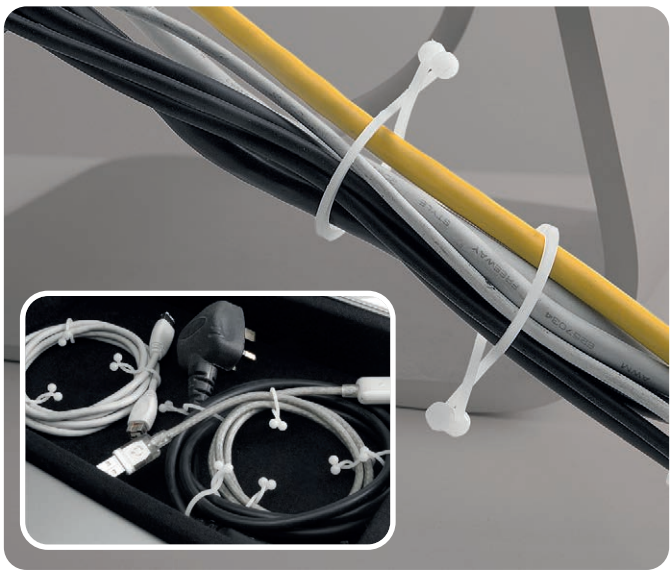
Cable Tidy Clips

Self-adhesive; peel & stick

The low-profile and narrow base provides a versatile solution

Description	Part No
1x Cable Tidy Clip (26mm W x 15mm D x 8mm H)	PPCTABSAW

Cable Tidy Twists



Simply twist & lock to fasten bundles of cables

Description	Part No
Cable Tidy Twist 11mm dia (bag of 100)	CTWST/TL450
Cable Tidy Twist 15mm dia (bag of 100)	CTWST/TL600
Cable Tidy Twist 22mm dia (bag of 100)	CTWST/TL950
Cable Tidy Twist 28mm dia (bag of 100)	CTWST/TL1125
Cable Tidy Twist 35mm dia (bag of 100)	CTWST/TL1375

Cable Tidy Band

Tested to hold up to 10kg with a 50mm overlap

Hook & loop design

Re-usable

Description	Part No
1.2m Black Hook & Loop Band	HLBAND1.2B
